

Dear Parent(s)/Guardian(s),

You have been sent this letter on behalf of Creative Solutions Psychology; we are Educational Psychologists working with Primary First Trust and several of their associated schools to review various topics around learning and inclusion. This is with the view of continuing to understand ways in which learning and inclusion can be supported at an academy and school level. As part of our ongoing work across the academy we want to hear your views.

We have developed a survey for parent(s)/guardian(s) to complete by [DATE], which the school are kindly sharing the details of below. The survey takes no longer than 15 minutes, it is anonymous and the information will only be used for our involvement. It should be possible to complete this survey using a computer or smartphone with an internet connection. If you have any issues accessing this survey please do speak to a member of staff at your school reception. Many thanks for your time; each response is valuable in our understanding of your views.
