Mexico Class

Dear Parents/Carers

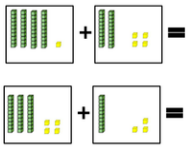

In Term 2, we will be learning about the local area.

English

In English, we will be studying a book called 'The lonely beast'. From this book the children will write a diary in role as a character. They will use adjectives to describe the city and the beast. At the end the children will retell the story and write a newspaper. We will also read 'Leon and Bob' and write about the story. Please read with your child for 15 minutes a day as this will support their learning across the curriculum.

Maths

We will focus on developing a secure understanding of addition and subtraction. The children will use base ten equipment to support their learning. This will be applied to problem solving and reasoning activities. Please encourage your child to go on Numbots to practice adding and subtracting or go onto TTRockstars to learn the 2, 5 and 10 times tables.

Science

In science, we will be investigating different materials. The children will identify and describe the properties of different materials. They will also discuss the best material for different jobs.

Geography

The children will learn about where we live and name features of our area. The children will learn about physical and human features in a town and the countryside. They will also learn the 4 compass directions.

PE

This term Year 2 will have PE on Tuesdays and Thursdays. Your child must have full PE kit in school, including joggers and a warm top. They should also have trainers or plimsolls for outside PE activities.

DT

The children will design a make a car with moving wheels. They will investigate which method of attaching the wheels is best.

Look forwards to another great term in Mexico Class.
Thank you for your support from Mrs Walters
