Turkiye Class

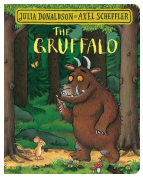

Dear Parents/Carers

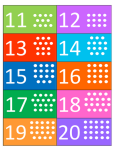

In Term 2, we will be learning about our school

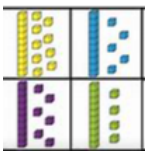

English

In English, we will be studying a book called 'Where the wild things are'. From this book the children will write a diary in role as a character. They will use adjectives to describe the forest and the beasts. At the end the children will retell the story. We will also read 'The Gruffalo' and discuss the various animals inside the book. The children will design and describe their own monster.

Maths

We will focus on developing a secure understanding of addition and subtraction to 10. This will be applied to problem solving and reasoning activities where there is a missing number. The children will also learn about numbers to 20. They will learn about tens and ones using place value equipment. Please encourage your child to log onto numbots as this will support their learning.

Science

In science, the children will be learning about materials. The children will identify the different materials and how they are used. They will participate in a range of interactive activities to bring their learning to life.

Geography

The children will learn about where we live and the route they take to school. The children will consider how to improve the environment looking at aerial views of the community. They will also learn about local changes over time.

PE

This term Year 1 will have PE on Tuesday and Thursday. Your child must have full PE kit in school, including joggers and a warm top. They should also have trainers or plimsolls for outside PE activities. Remember to remove your earrings before.

Please read with your child every night as this will help your child make progress. For maths learning- log onto Numbots to practice addition and subtraction.

We are looking forward to a great term.

Miss Pirwany
